Its Little Queen a

THE NEW ASSOCIATED PRESS—P.M. 1
THE HAGUE, Feb. 7.—(By Atlantic
Cable.) Queen Wilhelmina's mar-
riage to Duke Henry of Mecklen-
burg-Schwerin, who today became
Prince Heinrich of the Netherlands,
was a huge affair. All Holland, too,
came to The Hague to participate.
Those who stayed at their homes in
other cities and villages of the king-
dom, celebrated with parades, deco-
rations and banquets.

Never was seen a more beautiful
and happy wedding. The popular belief
that it is a love match gives a ro-
mantic coloring to the event, which is
generally lacking in royal marriages.
The ceremonies were the same sim-
ple rites of the Reformed Church by
which the humblest of Queen Wilhel-
mina's subjects are married. The whole
spirit of the affair was plain and dem-
ocratic, although the costly gowns and
jewels and the showy uniforms of dis-
tinguished persons, high officials of
the kingdom, the army and the navy
representatives of the people in Par-
liament and the municipalities fur-
nished a royal stage setting. The ven-
ueable pastor administered to the bride
and groom a caution that their high
positions would not shield them from
the common sufferings and sorrows of
humanity.

BRIDE AND GROOM.
Queen Wilhelmina made a very win-
ning and human bride. She blushed
and became confused over the cere-
monial with the ring, as all brides are
supposed to do, while her happiness
and pride over the enthusiasm of her
people were plainly deeper than a mere
matter of form.
Prince Heinrich was an awkward and
stout and many figure. Either he
was forgetful or badly trained in the
part, for the pastor had to give him
two or three hints as to how to carry
himself. Those sitting near enough to
hear the responses, describe him as

saying "Jah, mein Herr," when he should simply have replied "Jah." The scene as the royal couple stood with clasped hands before the chaplain in a circle of brilliantly-arrayed personages, including their relatives and people composing the highest fam-
ilies of Holland and the neighboring German principalities, was wonderfully gorgeous, the masses of variegated coloring rendering more effective the blue, gold and white banded against the walls of the church. The building itself is a cathedral in size, but is as plain as a Quaker meetinghouse in its furnishings.

TO LOO PALACE.
The Queen and Prince Consort rode to the railway station with a party of guests at 4 o'clock in the afternoon and boarded a special train, walking there to take them to Loo Palace. The people waiting in the streets and about the palace in The Hague were disappointed to see the royal escort gallop back alone.

THE CIVIL CEREMONY.
The civil ceremony in the Palace of Justice was very brief. The bride and groom, the Queen's mother and the mother of the groom and six witnesses inscribed their names upon the official document. The Minister of Justice first asked the mothers, according to the usual form, if they had any objection to the marriage, and they answered in the negative, amid general smiling.

In asking the bride and groom if they were willing faithfully to fulfill all the duties of the married state, the Minister of Justice said: "The question is most important, not only to you, but to our beloved country." The Queen and her brother answered in the affirmative, whereupon the Minister of Justice said: "I now declare you married according to law, and I wish you all possible happiness." Turning to the husband, he said: "For the love of your bride you have left your land and your people. You have promised to be a true and faithful husband. The loyalty of all our people will be assured to you." Then, turning to the Queen, the Minister of Justice said: "For the love of your husband you have left your land and your people. You have promised to be a true and faithful wife. The loyalty of all our people will be assured to you."

THE MARRIAGE CONTRACT.
The Queen and Prince Henry have bound themselves by contract, in accordance with the statutes, to recognize the husband as the head of the matrimonial union and to provide for and educate the children of the union. The husband assumes the responsibility of representing the wife in all civil actions and of administering her property, except as he is restricted by the marriage contract, by the terms of which he renounces any right to sell or mortgage her landed property.

The wife promises to obey the husband, but by a special recent decree of the Dutch Parliament, she is exempted from the usual promise to "dwell with him wherever he deems it best to live."

The contract also provides that the Queen shall allow the husband interest on 50,000,000 guilders, and that he shall receive no income from the State except in the case of the Queen's death. It is further provided that the Queen shall yield obedience to her husband as wife, but not as Queen, and the husband relinquishes the right to administer the wife's property.

Luncheon was given in the palace after the church ceremony, the two families, the ministers of State and the witnesses attending. The tables were loaded with state plate, gold and silver, and beautifully decorated with white flowers. The Queen's mother toasted the young couple, and Prince Heinrich responded. The Grand Duke of Mecklenburg pronounced a toast, to which the Queen's mother responded.

HAPPY POPULACE.
Tonight the populace is like a multitude of happy children. Thousands are swarming through the principal streets, which are nearly impassable, blowing horns, singing the national hymn, following the bands, smashing hats and lanterns. Aged housewives, with their husbands, from the provinces are joining hands with stylish city folk and dancing to the music of street organs. There is considerable mild hilarity inspired by wine, but no offensive drunkenness. Sailors, fishermen and farmers, in their usual quaint costumes, and a few soldiers are mixing with the crowds.

At this hour, 8 o'clock p.m., there is a turning from every direction toward Hallved entrance to the Bosch, where a display of fireworks is in progress. On all the principal streets are illuminated portraits of the Queen, Prince Heinrich, the Queen Dowager and Duchess Maria, as well as the national arms. A noteworthy feature of the holiday season is the entire absence of extortion on the part of the hotels and shopkeepers and the warm-hearted hospitality with which all strangers are received is equally observable. The

Dutch journalists rented the former Austrian legation, one of the finest houses in the city, and made a club for foreign correspondents, who were the recipients of general kindnesses.

The entire expenses of the wedding will be borne by the royal family without any government appropriation. They amount to several hundred thousand guilders.

The Court Gazette publishes a decree, signed by the Queen, announcing that the Prince of the Netherlands will have a seat in the advisory State Council.

Count Smolnoff Won't "Swear Off" and Says It is Nobody's Business How Much He Drinks.
WASHINGTON, Feb. 7.—(Exclusive Dispatch.) The inventor of smokeless powder, Count Smolnoff, was confined in the Washington Police Court today for being an habitual drunkard. He showed no wish to mend his ways, and declared stubbornly that it was no one's business how much he drank. Not having \$50 for bail, he went to the workhouse for three months.

The Count has been worth his millions. He lived in luxury in a beautiful house on Columbia Heights, near Washington, and had a charming and lovable wife. It is said that Smolnoff has received big sums from various governments for his invention.

One day, while under the influence of liquor, he fired a pistol at his wife, but the bullet fortunately did not strike her. Sult for divorce was later filed by Mrs. Smolnoff and separation followed.

Interesting Features of the Ne-
gotiations—Pichon's Per-
sistent Inquiry.

WASHINGTON, Feb. 7.—The State Department has received the following report, dated February 6, from United States Minister Conger at Peking, of the progress of the negotiations there between the foreign ministers and the Chinese government:

"The foreign ministers held a conference yesterday (6th) with the Chinese plenipotentiaries, who presented the difficulties in the way of the execution of the three Chinese sentences, Prince Tuan, Prince Lan and Gen. Tung Fuh Siang. They gave assurances of the execution of Chang and Yu Hsien, but urged leniency for the others, begging that the court be not placed in a position too difficult.

"The foreign ministers have agreed to demand capital sentences for Tuan and Lan, but with the expectation that it would be commuted to exile. They demand the death penalty for the others also mentioned in the decree—Yu Hsien, Chih Lai and Hsu Cheng Yu, the last two being now prisoners to the Japanese at Peking. Posthumous honors are also demanded for the four members of the T'ung Li Yamen executed last summer."

Interesting Chapter of the Negotiations at Peking—Discussion of the Death Penalty—Li Hung Chang Regards the Question as Settled.

PEKING, Feb. 7.—(Exclusive Dispatch.) The session of foreign ministers yesterday, which lasted five hours, was a stormy one. The German Minister declared he would not accept the Chinese proposition, but when an open rupture of the concert seemed inevitable, a compromise to quiet Berlin susceptibilities was contrived. Notice was drawn up by the representatives of the powers to demand the publication of the decree condemning Prince Tuan and Duke Lan to death, but at the same time it was decided not to oppose commutation of the sentence to imprisonment by the Emperor.

Li Hung Chang would not answer to-day the direct question, "Will the court accept?" but stated that he regarded the punishment chapter of the negotiations as definitely closed.

During the meeting the Chinese representatives said it would be impossible to kill Prince Tuan and other princes, because of their relationship to the sovereign. Pichon, the French Minister, retorted: "Forty years ago a Prince having some relationship was beheaded by order of the Empress Dowager." The Chinese replied: "That was a very different case. He was guilty of rebellious conduct toward the government."

Pichon said: "Then you mean to say the Prince is not likewise guilty; that he did what he did by order of the government?"

The Chinese made no reply. Prince Ching demanded to know why twelve names were on the list now, when the original contained ten names. Sir Ernest Satow, the British Minister, replied: "This is the only list ever presented to Your Excellencies. It contains twelve names."

M. Pichon said: "You need not feel embarrassed by the other two. We will take care of them."

This was in reference to two Chinese held prisoners by the Japanese, whose names were added to the list. One of these, Hsu Chang Yu, was leader in the execution of two members of the T'ung Li Yamen, which he personally witnessed. As one of the victims was kneeling for the execution, he said to Hsu Chang Yu: "You kill me now, but before the twelfth moon you will kneel in my place." This remark was prophetic, as the French plan to kill Hsu Chang Yu on the same spot.

TUG-OF-WAR
OVER REVENUE.Senate's Bill Opposed
by the House.Amendments Will Be
Non-Concurred In.Examination of Wilcox—Bryan's
Views on Finances.

BY THE NEW ASSOCIATED PRESS—P.M.

WASHINGTON, Feb. 7.—The House members of the Ways and Means Committee held a meeting this afternoon to formulate a plan of action relative to the War Revenue Bill, but no definite conclusion was reached beyond the decision to non-concur in the Senate amendments. The action of the Senate in substituting an entirely new bill for the bill as it passed the House is looked upon as a distinct invasion of the prerogative of the House to initiate revenue legislation, and at the meeting today some of the members favored radical action to sustain what they consider the constitutional rights of the House to originate revenue legislation.

One plan suggested was to ignore the bill in its present amended form, and to pass another entirely new revenue bill. But this was regarded as entirely too radical, another proposition was to consider the bill as amended, and the one meeting most favor, was to report back the bill to the House tomorrow with a recommendation of non-concurrence, but without a request for a conference. This would require the Senate to ask for a conference, if any was to be held. There was little or no consideration of the Senate bill, the whole time practically being spent in the consideration of a form of procedure.

A meeting of the full Ways and Means Committee will be held at the conclusion of the conference of the House members tomorrow.

THROUGH THE PARKS.

BY DIRECT WIRE TO THE TIMES.
WASHINGTON, Feb. 7.—(Exclusive Dispatch.) Senator Perkins has passed in the Senate today a bill which had previously passed the House, granting right of way through Yosemite National Park, California, for electrical plants, poles and lines for the generation and distribution of electrical power, and for telephone and telegraph purposes, and for canals, ditches, pipes and water conduits, water plants, dams and reservoirs used to promote irrigation, mining, quarrying or manufacturing, or cutting timber for domestic, public or any other beneficial use.

Permits for these rights of way, to be granted by the chief officer in charge of the park, and may be revoked at will.

NOMINATIONS.

BY THE NEW ASSOCIATED PRESS—A.M.
WASHINGTON, Feb. 7.—The President today sent the following nominations to the Senate:

Thomas Fraser, register of the Land Office at Sacramento, Cal.; William W. Newman, receiver of public moneys at Sacramento, To be Judge-Advocate, with rank of major; Capt. Edgar S. Dudley, assistant quartermaster United States Army (major and Judge-Advocate of volunteers).

PENSIONS AND POSTOFFICES.

BY DIRECT WIRE TO THE TIMES.
WASHINGTON, Feb. 7.—(Exclusive Dispatch.) California pensionists, Ad. Pittman, River Yelkin, Santa Maria, St. Inez, Simon J. Brummett, Los Angeles, St. Jacob Antoni, Oxnard, St. Daniel C. Brown, Santa Barbara, St. De la Potencia at Laub, Cochise county, Ariz., was discontinued.

THE CASE OF WILCOX.

HIS WIFE ANSWERS TODAY.

BY THE NEW ASSOCIATED PRESS—A.M.
WASHINGTON, Feb. 7.—The House Committee on Elections, No. 1, has decided to take cognizance of the petition and charges filed against George D. Wilcox of Hawaii. George D. Gear of Hawaii, who makes the charges, was questioned on law points. The members were agreed that the matter should be cleared up by inquiry, and it was agreed to take Mr. Gear's testimony and that of Mr. Wilcox.

OBJECTED TO SOME HEARS.

BY THE NEW ASSOCIATED PRESS—P.M.
WASHINGTON, Feb. 7.—When the hearing began at 2 o'clock Delegate Wilcox and his chief accuser, George D. Gear, who has resided in Hawaii for the last two years, were present. Chairman Taylor of Ohio asked Wilcox if he had read the charges. The delegates replied in the affirmative. Taylor said the portions relating to Wilcox's marriage would be passed over, and then asked the direct question whether the delegate had written the letters specified in the charges.

"I will answer in a proper way," spoke up the Hawaiian in broad accent, "but I will do it to the committee, and not before these 'soreheads' here."

The chairman explained that the hearing would be public and all of Wilcox's rights would be protected. He stated that time should be given for each formal answer, and the committee adjourned.

NAVAL APPROPRIATIONS.

WASHINGTON, Feb. 7.—Senator Hale today reported the Naval Appropriation Bill, with a net increase over the House bill of \$2,000,000, making a total of \$18,000,000.

NEXT LIEUTENANT-GENERAL.

CORBIN MAY SUCCEED MILES.

BY THE NEW ASSOCIATED PRESS—A.M.

Efforts to Clean Up Legislation Prior to a Final Adjournment.

army with the rank of lieutenant-general. Upon the retirement of Maj.-Gen. J. B. Brooks, he will become the ranking major-general, and while the question of his appointment cannot, of course, be considered until after the retirement of Lieut.-Gen. Miles, the impression is gaining ground in War Department circles that this event will occur on August 8 next, when Gen. Miles will reach the age of 62 years.

Friends of Gen. Corbin say he has no wish to succeed Miles, but rather thinks the appointment should go to Maj.-Gen. E. S. Otis, as a reward for his service in the Philippines, but upon the retirement of Gen. Otis on March 25, 1922, Gen. Corbin will be ranked by only one officer, Maj.-Gen. Brooks, who will retire July 11, 1922.

ARMY APPOINTMENTS.

NO MORE AT PRESENT.

WASHINGTON, Feb. 7.—It is said at the War Department that no more general officers of the army will be appointed until after the Senate has acted upon the nominations sent in Tuesday. One reason for this is that there will be no vacancy in the list of major-generals unless Gen. Miles is confirmed in the higher rank of lieutenant-general. Such an appointment would prevent the promotion of either Brig.-Gen. Wade and Merriam to a major-general for some time to come.

Under the present plan, Brig.-Gen. Merriam, promoted yesterday, will be retired immediately after his confirmation, and Col. Daggett of the Fourth Infantry, promoted yesterday, will be retired immediately in order to permit the promotion of a regular lieutenant-general to the position of Adjutant-General's department, and Col. A. R. Arnold, First Cavalry, as major-general before their statutory retirement.

CHINESE CITIZENSHIP.

RULING FOR HAWAIIANS.

BY DIRECT WIRE TO THE TIMES.
WASHINGTON, Feb. 7.—(Exclusive Dispatch.) The Treasury Department today announced a ruling establishing the citizenship of Chinese in Hawaii who are citizens of the republic of Hawaii at the time of annexation to the United States. The question arose in the case of a Chinese citizen of Hawaii who had been naturalized in the United States.

DYNAMITE WRECKS

BY THE NEW ASSOCIATED PRESS—P.M.

ST. LOUIS, Feb. 7.—A special to the Globe-Democrat from Chihuahua, Mex., says word has just reached there of one of the most terrible mining disasters that ever occurred in Mexico. An explosion in the San Andres mine, situated in a remote locality of the Sierra Madres, in the western part of the State of Durango, caused the death of 87 men, women and children, and injured many others.

The catastrophe was due to the explosion of several hundred cases of dynamite which were stored in an underground chamber of the mine. Electric wires, connecting with the hoisting machinery, passed through the room in which this dynamite was stored, and it is supposed that these wires became crossed, thereby causing a fire which set off the dynamite.

All of the killed and injured were located on the surface, most of them occupying residences immediately over the underground workings of the mine. The explosion tore away the whole top of the mountain on which the village of miners was located, and men, women and children were blown into small pieces. Among those who were killed was Herman Luetzmann, the superintendent of the mine, and all the members of his family.

At the time of the explosion there were several hundred miners at work in the lower workings of the mine and, strange to say, none of them was seriously injured; although they were all seriously shocked by the force of the explosion. They rushed to the surface through one of the shafts that was not filled with debris, and the sight that met their eyes in the almost complete destruction of the village is indescribable.

The work of gathering up the fragments of the unfortunate victims of the explosion scattered over the mountain was begun and they were placed together and buried in one grave. But few of the mangled remains were recognizable. Summonses were sent to neighboring camps for surgeons to attend the injured, and it was some time before this aid arrived.

The San Andres is the most celebrated silver mine in Mexico. It is valued at \$20,000,000. It has produced many millions of dollars' worth of ore.

CAPT. JONES'S FATE.

MARRIED WITH CHINESE.

WASHINGTON, Feb. 7.—At last word has been received how Capt. Walter F. Jones died. Letters to Capt. Wingate at Peking say that he and the Chinese with him had been massacred on the borders of Mongolia, 250 miles from Peking; the Chinese mutilated and burned the bodies.

The Japanese papers published an interview with Prince Konyo to the effect that Japan must resist Russia being allowed to remain in Manchuria, as with that power in the northern Chinese provinces, Korea would be at its mercy.

under any law put a small premium upon any kind of money. Bryan cites the premium on silver in New York in 1893, caused by the local demand for small change. He also cites Senator Sherman in support of his statement. Proceeding, Bryan says: "As soon as the silver dollar is made redeemable in gold, another endless chain will be created, and the arguments used against the greenbacks and treasury notes will then be turned against silver. Before the attempt to burden the gold reserve with this new obligation is consummated, it may be worth while to consider the opinion expressed by Senator Carlisle in 1885, after quoting Mr. Carlisle's testimony before the House committee on the redemption of the greenbacks. Mr. Carlisle thought it a mistake to consider redeeming in gold, considering the danger to interfere with the currency after it was once established. By the same logic, it can be argued that we should not establish the currency of redeeming in silver dollars in gold." Bryan concludes as follows: "The measure recommended by the committee gives to the financiers absolute control over the national debt. They can increase it any time by presenting a bill for the redemption of bonds and compelling an issue of bonds to replenish the gold reserve. They can, in the same way, cause an issue of bonds to be drawn into the treasury by an issue of bonds to be drawn into the treasury to meet current expenses (and that is only possible when the expenditure exceeds the receipts) or loaned out to government bonds."

Second, the conversion of standard silver dollars into subsidiary coin is equivalent to the retirement of silver as standard money, and this is the last act of the program instituted some twenty-seven years ago and persistently pursued ever since. This is the last act of the program instituted some twenty-seven years ago and persistently pursued ever since. This is the last act of the program instituted some twenty-seven years ago and persistently pursued ever since.

If such action existed in connection with gold as evidence Chas. would, he says, be created which would operate against white metal.

The Times regrets to announce that owing to the inability of the manufacturers to meet the large requirements of the syndicate of newspapers using the famous Tinseltown Silver Pictures, that it will be impossible to begin the distribution of them on next Sunday, the 14th inst., the date which has been previously named as the time when the first picture would be distributed. It is now hoped that the first picture of the series, which were shipped to Chicago on the 11th inst., will reach this city in time to make the distribution to patrons of The Times on Sunday, February 15.

THE PENDING AMENDMENT TO THE BILL

WAS THAT READ:

Mr. Butler called upon Mr. Aldrich to explain his amendment. Mr. Aldrich said the amendment was to the effect of reducing the speed on which subsidy was to be awarded, from 21 knots to 18 knots, and the payment from 2.5 cents per gross ton to 1.6 cents. He also said that the reduction upon the American-line ships would be about \$40,000 per annum each.

ROTTEN WORK IN MANILA.

Traders Get Passes to
Supply Rebels.

Gen. MacArthur Exposes
Gross Treason.

Leading Firms Said to be In-
terested in Prolonging
Insurrection.

(BY DIRECT WIRE TO THE TIMES.)
SAN FRANCISCO, Feb. 7.—[Exclusive
Dispatch.] The arrest of a
Spanish merchant Carranza and D. M.
Carmen, a former Californian, in Manila,
for assisting the insurgents, is only a preliminary
evidence of the gross treason which has been
brought to the attention of the government.

It has long been known among transport people and dis-
tasteful traders, that a system of in-
trigue, under the protection of trea-
sonable government employees and dis-
tasteful traders, has been in vogue for
months, and that trading craft, sup-
plying the insurgents, have been ply-
ing between ports on passes which have
been issued by American officers who
have been deceived into giving them
to native and white traitors.

Gen. MacArthur has grasped the
situation, and arrests by wholesale will
follow. He has been working on the
matter for some time, and the source
of insurgent supplies has at last been
discovered. Before the investigation is
over, there will be more than one pris-
oner for deportation to Guam, and pos-
sibly a few traitors will be shot.

Manila will be found to be the source
of insurgent supplies, and the so-called
Americans most guilty. Under Gen.
Otis the conspirators worked the same
tricks that MacArthur and the secret
service men have uncovered. A sen-
tation that will reach large proportions
will result.

The insurrection in the Philippines
has been aided and prolonged from
the start by the leading firms of Ma-
nila," said Ellsworth Carey today. "It
has been notorious that the insur-
gents had certain prominent Manila
firms acting as their agents and bank-
ers, and other firms were constantly
paying assessments to Filipino leaders.
This was done to carry favor with the
insanes and to secure trade.

"One large firm has agencies in
every port in the islands, and also in
Cebu and Japan. These scattered
agencies have been at times in touch
with the insurgents, and collected and
distributed money. By the means of
this firm the rebels in the north of
Luzon could send money to any part
of the group in perfect safety. These
firms have been known to civilians in
Manila, and have been fully discussed.
It has been useless to report these mat-
ters in the past, as there was no direct
proof."

One Californian who is un-
der arrest, has a bad record in this city.
He swindled many eastern people by
selling land in Kenwood Colony in So-
ma county, which was plastered
with a mortgage. Later he organized
the Klondike Company, and the sub-
scribers recovered no returns. Garman
landed in Manila with only \$20, but
for many months he has been making
\$1000 per week in trading. It has been
an open secret that he and his part-
ners supplied the insurgents with arms
and food, but no legal proof could be
secured.

(BY THE NEW ASSOCIATED PRESS—A.M.)
LONDON, Feb. 7.—[By Atlantic Ca-

dra and other members of the royal
family arrived in London at 4 o'clock
this afternoon. They drove in four
open carriages over the same route
Emperor William traversed Tuesday.
In their majesties' carriage was the
Princess Victoria and Prince Edward
of York. The King was in civilian
clothes, and the ladies of the party
were closely veiled.

The court circular announces that
Emperor William, in thanking King
Edward for conferring upon him the
rank of field marshal, said the honor
enabled him to wear a uniform sim-
ilar to that worn by the Duke of Wel-
lington and Lord Roberts, a com-
pliment that would be highly appreciated
in the German army.

The Daily Mail has the following
from its London correspondent: "The
King of Portugal is staying a few
days longer in London than he origi-
nally intended at the express wish of
King Edward. His visit is likely to
have important developments."

MISS KELLER A WONDER.

Deaf, Dumb and Blind Girl Student

Progress in Studies.

(BY DIRECT WIRE TO THE TIMES.)
CAMBRIDGE (Mass.), Feb. 7.—
[Exclusive Dispatch.] Helen Keller,
the wonderful deaf, dumb and
blind student at Radcliffe College
Harvard Annex, has received new and
exceptional honors. Miss Keller, in
the middle of the term, has been pro-
moted from what is known as the
English 22 class to the English 12
class. The promotion is a remarkable
one and is made only on the recom-
mendation of the professor of English
on account of extraordinary progress
in her studies. In the class from

which Miss Keller has just been ad-
vanced there are about forty students,
and above all these the deaf, dumb and
blind girl stood prominent.

Few in Radcliffe have had the honor
given Miss Keller. The work of the
class with which she now studies is
far advanced and only a limited num-
ber take up the work. Prof. Copeland
characterizes her work as showing
wonderful mental equipment and far in
advance of anything ever accomplished
by the class which she has just left.

The course Helen Keller is taking this
year includes history, English, French
and German. In every study she is
said to be abreast of her class. As a
linguist she has shown remarkable
talent.

(BY THE NEW ASSOCIATED PRESS—A.M.)
ROME, Feb. 7.—[By Atlantic Ca-

nation of the Cabinet this morning.
King Victor Emmanuel will consult
with the President of the Senate and
Chamber of Deputies and the various
party leaders today and tomorrow be-
fore designating a new Premier. He
is confronted with a task of great dif-
ficulty, owing to the chaotic conditions
of the parliamentary parties.

The majority, which defeated the
government yesterday, consisted of a
transitory coalition of the members
of the Right and Left, only the Rudini
group supporting the government. The
Socialists opposing the Cabinet because
they considered it not sufficiently
Laborist, while the Rightists accused
it of lacking a coherent policy and
yielding to the Socialists. The fall of
the ministry was thus due to diametri-
cally opposed reasons. Yesterday the
coalition disappeared.

lieves that it is the duty of the Gov-

ernment to see that the money is

used, and says that if it is not, the

State Board of Examiners has power

to authorize necessary expenditures in

the future.

"In 1913," says the minority report,

the Legislature passed an emergency

bill during the excitement attending

the introduction of cholera into our

western coast, creating a fund of \$50,

000 to be used by the State Board of

Health under the direction of the Gov-

ernment.

"In seven years there were used of

this fund \$12,000.44. Since the begin-

ning of 1900 there have been be-

lieved, leaving a balance in the fund

of \$38,000.56. This, in our judgment,

is sufficient to meet any emergency

likely to arise in the near future, and

if an emergency should arise the State

Board of Examiners would have power

to authorize the necessary expendi-

tures."

"The raising by tax of \$100,000 at this

time, for possible, but improbable use,

we consider inadvisable and calculated

to augment the feeling of uncertainty

and fear in California and elsewhere

relative to health conditions in San

Francisco."

FRANCHISE MATTER RESTS.

The Senate Committee on Municipal

Corporations has taken no further ac-

tion on the proposed franchise law.

Charles Taylor, attorney for the

city, said today that there

will be no more public discussion of

this subject before the committee. He

said that the report would be

presented to the Senate today, and

that the work of those who

oppose the measure will be to

bring it up for discussion today than

before the meeting of the com-

mittee yesterday, when he showed

that he had little conception of what

he had to do. When the admission by

Broughton that the measure was pre-

pared in the Potomac Block in Los An-

geles (W. E. Dunn's office) is coupled with

the announcement of its provisions,

it is naturally to be inferred that

preventing the measure he simply acted

as the tool of the railroad interests. His

measure, which would give an electric

franchise to Alhambra and his sons dis-

misses the fact that his bill was so

carefully drafted that it would be

GOV. GAGE'S PET BILL
WINS IN COMMITTEE.

SENATORS DEFY PROTESTS TO
THE PLAGUE MEASURE.

Howell and Pace Strongly Oppose It
in a Minority Report—Hearing on
Franchise Law Ended—Classification
Bill Passes in Assembly.

BY DIRECT WIRE TO THE TIMES.
SACRAMENTO, Feb. 7.—[Exclusive
Dispatch.] In spite of the protests of
representatives of all the commercial
bodies in San Francisco, a majority
of the Senate Committee on Health
today favorably reported the bill ap-
propriating \$100,000 to be used as the
contingent fund in matters affect-
ing quarantine, and the measure was
passed by a vote of 12 to 10.

The minority report, con-
sisting of Senators Howell and Pace,
presented a minority report which in-
cluded a petition for a hearing on the
franchise law, and a petition for a
hearing on the classification bill.

The minority report calls attention
to the fact that the Legislature of
1898, as an emergency measure, ap-
propriated \$50,000 to prevent the intro-
duction of Asiatic cholera into this
state, and that since that time the
state has expended over \$100,000 in
the same direction.

The report also says that if it is not
passed, the state will be unable to
meet any emergency.

OIL-TEST BILL DROPPED.

Those who have been opposing the
bill providing for the testing of pe-
troleum used for illuminating purposes
and for the sale of kerosene, re-
turned today from Los Angeles, and
while there he consulted a number of
prominent oil producers to ascertain
what their objections to the bill were.
They succeeded in convincing him that
the test proposed was too severe, and
it would have the effect of shutting out
oil sold by California refiners. He has
therefore practically abandoned the effort
to secure the adoption of the bill,
and today asked that it be dropped to
the foot of the file. There a similar
bill in the Assembly, but whatever the
fate of the Currier bill in the Senate
will be the fate of the Assembly
measure.

PRISON AFFAIRS MUDDLED.

The legality of the acts of the Board
of Prison Directors during the past
year has been questioned, and an in-
vestigation is now being made as to
whether any result in a bad muddle in prison
affairs generally. The inquiry into the
matter is being conducted quietly, and
it has not as yet been called to the
attention of the Legislature. The sup-
posed illegality of the acts of the
board, or at least some of them, is
based upon a doubt as to whether D.
E. Hayes is now a legal member of
the board, or has been for more than
a year. His term as a member of the
board expired January, 1900.

The constitution provides that mem-
bers of the board shall hold office for
ten years, but it makes no provision
for their retaining their places until
their successors shall have been ap-
pointed and qualified. Lieut.-Gov. Neff,
once a prison director himself, re-
sponds to the Attorney-General's in-
quiry as to whether Hayes's acts
since January, 1900, were legal, and
the Attorney-General is said to have
replied that they were not. The opinion
has not been made public as yet, but
the Legislature may be asked to pass
a bill legalizing the acts of the board,
as the legality of a number of con-
tracts made by the board is in ques-
tion.

INVESTIGATION PROBABLE.

It is almost certain that there will
be a thorough investigation by the
Senate committee of the State prisons
in San Quentin and at Folsom. The
Prison Committee has not made its re-
port upon what it found at these insti-
tutions when it visited them, but it
is known that the committee is fur-
ther being aided with the manner in
which the business of both places is
transacted. Senator Delahave wants
a searching investigation, not that he
expects to find corruption in high
places, but more in order that a more
thorough system of keeping accounts
may be introduced and the prisons pro-
tected from the effects of such a
recently been discovered at San Quentin.

TO ABOLISH GRAND JURIES.

Senator Caldwell today introduced a
proposed constitutional amendment to
abolish grand juries. He says that
such bodies are most costly and are
sources of needless expense, and that
they add nothing to the administration
of justice.

The bill to pay Fred
Blaikley of Los Angeles also passed
the Assembly today. Blaikley was a
Well-Fargo messenger on the train
held up near Daguerre more than a year
ago. He killed one of the robbers, and
was awarded a reward for disposing of
highway robbers.

FIRST FIGHT AT CAPITOL.

MACHETH WHIPS SPELLING.

BY DIRECT WIRE TO THE TIMES.
SACRAMENTO, Feb. 7.—[Exclusive
Dispatch.] The first fight since this
session, in which a member of the
Legislature was engaged, occurred
this evening in the Assembly sergeant-
at-arm's room, the combatants being
T. Carl Spelling, a San Francisco at-
torney, and Assemblyman D. Macbeth,
also of San Francisco. Spelling is the
author of one of the proposed
primary election laws, and Macbeth
is championing another such measure.

The attorney tried to induce the As-
semblyman to withdraw his opposition
to his bill, but the latter refused.
This so angered Spelling that he be-
gan to abuse Macbeth and called him
names which would make any man
fight. Macbeth warned him to desist
and then slugged him in the face.
Spelling is large enough to make two
of Macbeth, but in spite of his superior
size he tried to kick his adversary.
Macbeth then went at the attorney
whirlwind fashion, and rained blow
after blow upon his face and head, and
ran him out of the room. Friends
then interfered and stopped the fight.

PELHAN ON CORRUPTION.

EXPECTS IT TO BE DISCLOSED.

BY THE NEW ASSOCIATED PRESS.—P.M.
SAN FRANCISCO, Feb. 7.—A large
crowd was present at today's session
of the police investigation, the court-
room being uncomfortably filled. The
testimony was for the greater part
lost, a thrashing over of old story.
Nothing of a new or sensational na-
ture was brought out. Mayor Phelan
was the principal witness. Police Com-
missioner Newhall and Wallace, T. T.
Williams and Dent Robert of the Ex-
aminer, ex-Commissioner McNutt and
Wong Jim, the Chinese whom Mayor
Phelan referred to as having ap-
proached his agent in San Jose with
a proposition relative to Darby seeing
the Mayor regarding immunity in the
local Chinatown, all testified. Mayor
Phelan said he believed that the local
paper opposing the policy of the
police department was not actuated by
reasons of public good, but by recent
growing out of political disappointments.

The Mayor said he would not be sur-
prised if corruption in Chinatown was
proved. He knew that that policemen are
human. Concerning the charge that
property owned by Chinatown was
being sold to a brother-in-law was devoted
to gambling and prostitution, the Mayor
explained that the property had been
sold to the Sullivan estate, and was leased
to a Chinese for \$1100 a month, and was
being used for a brothel.

He said that he was not prepared to
share with the property was to spend his
share of the rent.

Newhall, president of the Police
Commission, was asked: "Is it your
opinion that the force is strong?"

"It is my opinion that it is, I can
answer for others, but for myself, I
think so."

"As far as gambling and prostitu-
tion are concerned, I believe that they
are being made efforts to keep away
from Chinatown."

Newhall said that he believed the po-
lice were making efforts to keep away
from Chinatown.

TOPEKA (Kan.), Feb. 7.—Mrs. Car-
rie Nation addressed both houses of
the Legislature this afternoon on the
evils of the saloon traffic. She pre-
sented a petition from the House
at 5:30 o'clock with the request that
she be allowed to speak. The request
was voted upon, and by a large ma-
jority Mrs. Nation was allowed to
speak. Some few voted no.

"I heard those noes," said Mrs. Na-
tion, as she walked upon the clerk's
platform. "I wonder why those peo-
ple voted that way. Have I ever of-
fended you? Why do you object to
my talking? But then, don't I know
that those noes come from the liquor
traffic?"

A storm of laughter swept over the
house, and it was several minutes be-
fore Mrs. Nation could proceed.

"Hold up your hatchet," yelled some
one in the rear, but Mrs. Nation only
smiled.

"Thank God the noes are in the mi-
nority," she continued. "I come to you
today, men, as a woman, as a grand-
mother. I come to tell you our senti-
ments. I am glad of this opportunity
to speak to fathers, husbands, protec-
tors of wives who sit at their bedside,
who know a man's heart and her in-
terests."

"Now, gentlemen," said Mrs. Nation
in an earnest tone, "you can remedy
this evil by knocking out clause 10
in the prohibitory law which gives the
County Attorney the right to sum-
mons, but which affords no right to
the right to compel them to testify.

the famous "Burrhead" of Dowry,
were in this city last night and
today, and, though the whole police
force of the city is on the lookout for
them, they have not been seen. They
aim to destroy drug stores rather than
liquors. They enter a drug store and
ask the keeper if he believes in the
cure of diseases by prayer. If he says
no, they shout "Burrhead" and "Dowry,"
at the same time swinging umbrellas
among the bottles on the shelves.

says more railway combination rumors
are current here. One is that the Rock
Island, the Denver & Rio Grande,
and the Rio Grande Western are to be
consolidated in connection with Sen-
ator Clark's Salt Lake and Los An-
geles line.

Not long ago, the story of a consoli-

was started, but it received little cred-
ence. It has just been reported that ne-
gotiations have been resumed for con-
solidating the Illinois Central and the

rumor is a revival of the old re-
port.

Other rumors revived are that the
Illinois Central and the Rock Island
are both seeking to gain control of the
Minneapolis & St. Louis and Iowa Cen-
tral roads. The immediate prospect of
a combination of the Lackawanna
and Wabash Railroads is also reported.

SENIOR B'S DAY AT HIGH SCHOOL.

THEY painted things red at the

Senior B's.

Their faces were red and white,

and their decorations spoke it loud.

They were not entirely selfish. The

school colors, blue and white, were

represented by a network of alternate

bands of blue and white bunting,

the two chandeliers suspended from

the ceiling of the auditorium, forming

the two centers from which the colors

radiated to walls and stage. Above

the school colors, on the chandeliers

were placed large bunches of brilliant

red poinsettias, suggesting that the

Senior B's were on top yesterday. The

stage was draped with striking

bands of red and white, studded at

intervals with the wall with

the form of a small double-decked

ship and in occupied places

of red and white. The dictators

also modestly generous with the

Senior A's, in permitting their colors

to be used in the presentation

of the Senior B's. The dictators

were in the nature of a pin pres-

ent, the signal for the audience

was when the fifty-four gradu-

ates entered the center of the

stage. There was prolonged

applause, and the dictators

then seated. Each graduate was

presented with a rosette and long

streamers of polka-dots, in purple

and lavender—a tasteful decoration

for the main event, the fol-

lowing musical numbers were rendered:

When the last one had received the

emblem, Bryant Matthews, president of

the Senior A's, accepted them for the

class, pledging loyalty to the frater-

nity and friendship for the donors.

HIGH JINKS OF SENIOR B.

But the Senior B's were not yet at

the end of their string. While the or-

chestra played, the stage was rear-

ranged and the curtains rose on one of

the most striking pieces of color ever

seen on a graduation stage. If the red

and white had been dominant in the

earlier part of the programme, it was

absolutely "audible" now, as they ap-

peared to render the class song to the

time of the "Tinkers' Song."

Each gentleman was gorgeously ar-

ranged in red shirt, white duck trousers

and white collar, red and white tie, and

carried a bamboo cane decorated with

the streamers of the same colors. The

ladies wore a white duck skirt and

waist with sailor collar, the bot-

tom of the skirt, collar and waist be-

ing decorated with two broad bands of

red, and the yoke and choker were of

solid red.

The song consisted of the usual

"jollity" of everybody in the school.

From the "chorus" to the professors, the

Senior A's coming in for the giant's

share of the jokes. An entire innova-

tion was the representation of the

graduating class at two stages of its

existence. The ranks of the singers

suddenly parted, but without a break

in the song, and from the two wings

appeared a typical schoolboy and girl,

each carrying lunch box and books.

The schoolboy, wondering up and

down the front of the stage, with all

imaginable verandage, and then retired

again appeared, this time gorgeously

arrayed in royal purple robes and

and mortar-board hats. With majestic

tread and well-forged hauteur, they

paraded themselves in the superior at-

titude of graduates. It was a great

hit, and was a well-timed climax to the

picturesque act.

SENIOR B'S ROSTER.

ROYAL WEDDING CEREMONIES IN HOLLAND PICTORIALY PRESENTED.

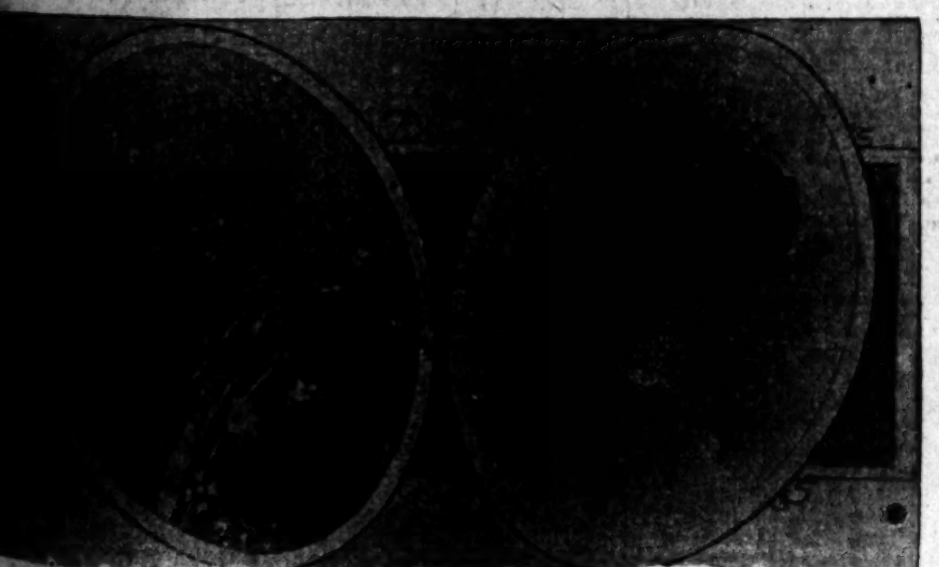

HEINRICH, DUKE OF MECKLENBURG.

HE IS NOW THE CONSORT TO THE ONLY RULING QUEEN.

Duke Henry Vladimir Albert Ernest of Mecklenburg-Schwerin, who has just become the Consort of the young Queen of Holland, will be twenty-five years old next April. He is a fine-looking man, especially in his uniform as officer of the Prussian Guards. He is step-uncle to the present Grand Duke of Mecklenburg.

DUTCH LOVE THE LOVERS.

CELEBRATION WAS DEMOCRATIC. (By THE NEW ASSOCIATED PRESS—A.M.) NEW YORK, Feb. 7.—A dispatch to the Tribune from The Hague says there was on the eve of the royal wedding the same joyous revel, innocent merriment and good humor as on the two previous nights. The characteristic Dutch traits have come out at this marriage carnival. The Queen has not favored a marriage de convenance, nor been influenced by state reasons, but has made a love match, and this appeals to the genuine home-loving instincts of her Dutch subjects. They are not enamored of her German lover, but they perceive that she is, and respect her choice. They are celebrating the event in their own way with naive simplicity and sincerity. This is a nation of music lovers, and the choral societies have been singing daily in the streets. There is an artistic strain in their blood, and this has been shown in the harmonies of color in the street decorations and the costumes of the pageants. The Queen is received everywhere by her subjects in a democratic way, and understands them and is thoroughly at home among them. There are many royal guests at the palace and the hotels, and the dignity of the court is maintained by mounted escorts for the state carriage and liveries and guards of honor, but the Queen herself is a romantic figure among the home-loving, domestic people. She is most girlish, and plumper than at the installation ceremonies three years ago, but she is still handsome, and has a charming grace of manner. All the world loves a lover, and the Dutch romance is pure and sentimental.

THE HAGUE ENLIVENED.

People Out En Masse to See the Royal Wedding Party.

(By THE NEW ASSOCIATED PRESS—A.M.) THE HAGUE, Feb. 7.—(By Atlantic Cable.) The city today bore its most festive appearance. Vast crowds were in the streets early, and trains poured in thousands from all parts of the country. The route of the royal procession to the Grote Kerk was decorated with large baskets of green plants, lighted by orange blossoms and white roses, tied in large white knots. The weather, though fine, was intensely cold. The stands, the windows, and the roofs along the line of the route to the Grote Kerk were thronged with people. The civil ceremony of the marriage of Queen Wilhelmina to Duke Henry of Mecklenburg-Schwerin was carried out at 11:30 o'clock, in accordance with the programme, and immediately afterward the procession started for the church, headed by fifty hussars, the bride, bridegroom and Queen mother riding in a golden state carriage drawn by eight horses. They were warmly acclaimed by the crowds assembled. The church was reached soon after noon. The United States military attaché, Col. J. N. Whelan, was present in full uniform. The court chaplain, Dr. Van Der Vlier, standing before the bride and bridegroom, delivered an address. His text was from the fourth Psalm, "Lord, lift Thou up the light of Thy countenance upon us." "The festive hour has arrived," said the pastor, "wherein the entire people has its share of delight. The prayer contained in the text embodies the essential conditions for lasting married happiness, which does not depend on external things, but on the disposition of the heart. The prayer for the light of the Lord's countenance seems to suggest some darkness, and it is certainly clouds will show themselves at times in the conjugal heaven. "This union which we today are celebrating has already demanded sacrifices. The husband has had to leave his country and people, and the bride has to leave the side of a dearly-loved mother. In the future, too, be sure, the reverse of life will fall to your lot. Do not then forget the prayer of David: 'Lord, lift Thou up the light of Thy countenance upon us.' It will be necessary for you, if you are to fulfill thoroughly the duty of marriage, to fulfill the duty of love in your marital relations. In that relation, man is the head and woman is the heart. The Psalm in this prayer will also be your help when you have to bear your mutual burdens, for in marriage two sinners are united, each having his and her faults. Finally, it is indispensable to the unity whereto you have been called. "According to the command of God, these two shall be one. Now only love can form and preserve this tie. But if you wish this bond not to be loosened, your heart must be filled with prayer. Lord, lift Thou up the light of Thy countenance upon us."

THE BRIDE-QUEEN OF HOLLAND.

WILHELMINA WREATHES HER CROWN WITH BRIDAL BLOSSOMS.

The eyes of Europe have turned with glad relief from the funeral ceremonies of Queen Victoria to the festivities attending the wedding of Holland's young Queen. She had many suitors from the various royal families possessing marriageable sons, and her final choice was a surprise to all. She pleased herself and at the same time pleased her people, something sovereigns rarely succeed in doing.

WEDDING PROCESSION OF THE NEWLY-WED COUPLE.

THE POPULACE JOYOUSLY ACCLAIMED ITS QUEEN AND HER CONSORT AS THEY DROVE THROUGH THE STREETS.

After the double civil and religious wedding ceremonies at the Palace of Justice and Royal Palace and the wedding breakfast that followed, the royal couple drove through the streets and were received by their people with every evidence of good wishes for their happiness.

EVENTS IN SOCIETY.

Miss Elizabeth Elouise Baldwin of Los Angeles and Norman Dwight Hinsdale of Pueblo, Colo., were married yesterday evening at 8:30 o'clock at the home of the bride's parents, Rev. and Mrs. David Jaqueth Baldwin, No. 114 West Twenty-eighth street. Rev. Warren F. Day officiated, and the wedding took place in the presence of a large number of friends. The house was artistically decorated. The hall was arranged with potted palms, stocks of papyrus and poinsettias; white ribbons, carnations and anemones. Plumes were used in the parlor, and on one side, where the couple stood during the service, was a beautiful background of greenery, smiling roses and ivy were used in the library and dining-room. The bride wore a beautiful gown of liberty silk over white satin. Her long tulle veil was held in place with a diamond crescent, and she carried a large bouquet of white roses. The bride is an accomplished musician, having spent two years abroad, with her sister, where they both studied. Mr. Hinsdale is a prominent banker of Pueblo, Mr. and Mrs. Hinsdale will spend a few weeks visiting points in Southern California, and they will be at home after March 1 in Pueblo. Many beautiful and costly presents were received by the bride, attesting her popularity during her short residence of a year in Los Angeles. The following-named were present: Mr. and Mrs. David Dudley Field of Boston, Mr. and Mrs. Charles McFarland, Mr. and Mrs. N. B. Blackstone, Mr. and Mrs. Vickery, Mr. and Mrs. David M. Field, Mr. and Mrs. J. D. Malle, Mr. and Mrs. W. J. Hawkes, Mr. and Mrs. Benjamin Pittman, Rev. and Mrs. Warren F. Day, Rev. and Mrs. Horace Day, Dr. and Mrs. Francis B. Kellogg, Rev. and Mrs. J. H. French entertained the members of La Carita Club yesterday evening at the regular fortnightly club meeting. The rooms were decorated with flowers and ferns. Prizes were awarded. The club is one of the most popular card organizations in the city, and the meetings are especially delightful. The club membership includes the following-named: Mr. and Mrs. R. B. Williamson, Mr. and Mrs. Garrett, Mr. and Mrs. Hanson, Mr. and Mrs. O. E. Parish, Prof. and Mrs. Henry, Mr. and Mrs. Peck, Mr. and Mrs. C. E. Harding, Mr. and Mrs. Logan, Mr. and Mrs. Cole, Mr. and Mrs. Smith, Mr. and Mrs. W. E. Cummings, Mr. and Mrs. Brown, Mr. and Mrs. L. W. Stockwell, Mr. and Mrs. F. M. French. Reception. The board of directors of the Friday

Morning Club were at home yesterday afternoon in the clubrooms of the Woman's Club House, to the members of this popular organization. The company was delightfully entertained for half an hour by Miss Staples of Boston, who gave some clever readings. Miss Staples has come to Los Angeles to reside, and this was her first introduction in the city. Tea was served during the afternoon. About one hundred club members called.

For Miss McClary. Miss Bertha Holmes gave a delightful afternoon Tuesday at the home of her sister, Mrs. Dr. Hatch, on South Hope street, in honor of her friend, Miss Opal McClary, who is soon to leave for an extended trip through the East. The house was prettily decorated with red and green. The early part of the afternoon was spent in playing parlor croquet, and later an amusing soap-bubble contest, in which Miss Book won first prize, and Miss Nell Strong of Albuquerque, consolation. Dainty refreshments were served. Besides the guest of honor, those present were Misses Bryant, Payne and H. Stephen Brown; Misses Hawk, Strong, Hunter, Vance, Clinton, Stringfield, Book, Nell Strong, Pearl Nelson, Ecclestone, Jessie Nelson.

J.O.C. Club. Mrs. Payne of No. 1225 Vermont avenue entertained last Wednesday, the guests including officers of the J.O.C. Club, of which Mrs. Payne is president. The afternoon was spent in a contest for advertisements for sapollo. Miss Meek was victorious, and to Miss Ecclestone fell the consolation. Dainty refreshments were served. Those present were Mrs. B. C. Bryant, Misses Beatrice Ecclestone, Harriet Maxwell, Agnes White, Opal McClary, Addie Meek.

NOTES AND PERSONALS. The dance given in Kramer's Hall yesterday evening by members of the Solid Six was largely attended by club members and their friends. Mrs. Mary Longstreet will entertain with an informal musical this evening at her home, corner of Adams and Hoover.

NEWSPAPER WRITERS WEDDED. DENVER, Feb. 7.—Charles A. Bonfile and Mrs. Winifred Black, well-known newspaper writers, were married at 1 o'clock today at the residence of the bridegroom's brother, Frederick Bonfile, publisher of the Denver Post. The ceremony was performed by Rev. Richard E. Sykes. Mr. and Mrs. Bonfile will make a tour to Southern California and Honolulu, and return to Denver next spring.

RESIGNATION OF BOUTELLE. PORTLAND, Me., Feb. 7.—A special from Augusta, Me., says the resignation of Congressman Charles A. Boutelle as representative of the Fourth Maine District in the National Congress was received by Gov. Hill today. The resignation is to take effect February 28.

A profound sensation was caused during the service at St. Paul's Cathedral at London yesterday by an elderly Italian shooting himself in the head. He died from the effects of his injury. The shooting was due to depression owing to the fact that he was out of work. The man has not been identified.

CONSUMPTION CURED

THE PUBLIC SERVICE IN THE OFFICES AND COURTS.

SUMMARY OF THE DAY.

The ponds and lakes formed in the hills sections by the recent storm will be pumped dry where no other drainage system can be used.

The City Attorney returned yesterday from San Francisco. He is considering changes to Grove Johnson's Charter Bill.

The City Assessor recommends changes in the law relating to revenue and taxation.

The death rate in the city during January was the highest in years, as shown by the monthly health report.

Dead animals at the railway stock yards became bones of contention.

Another attempt is made to secure the parking of North Main street.

The Health Officer says but little influenza is in the local market.

The Los Angeles Traction Company has been sued by Ann Stewart for damages in \$2500.

The \$50,000 Schick estate was put into the Probate Court yesterday.

David J. Morgan was brought up with a sharp bail yesterday for attempting to put his wife in the insane asylum.

The Arvin boys of Arvin were acquitted yesterday of assault to commit murder last November on one Martin.

Two fighting Irishmen named Kelly and Murphy were brought into the Police Court yesterday for kicking a rough house in a saloon on the Plaza.

The testimony was taken yesterday in the case of Harry Stiles, the volunteer fireman charged with beating a woman.

G. L. Beattie, the window dresser accused of stealing from Desmond's, where he was employed, was tried yesterday for jury tampering. The jury failed to agree.

WATER HOLES WILL BE PUMPED OUT.

SIPHONS MAY ALSO BE USED IN SOME INSTANCES.

Health Officer Powers Makes a Tour of Inspection and Decides That Prompt Action Will Prevent Any Danger from Temporary Lakes.

The ravines and depressions in the settled portions of the city that were filled with water during the recent storm are to be pumped out in cases where they cannot be otherwise drained. There are many such holes in the hilly sections and already many complaints have been made to the Health Officer, Superintendent and to the Health Officer.

Health Officer Powers made a trip of inspection yesterday afternoon and found many places that need attention. Some of these will be reported to the Council on Monday. A very bad lake has been formed on Alhambra avenue near Griffin avenue, which will require immediate attention. On Alhambra street between Eleventh and Twelfth streets a large amount of storm water has settled in an old ravine, and there is a large pond of water where it is pumped out on State street between St. Louis and Chicago streets, on Myrtle Heights.

Several ponds have formed along the line of Lake Shore avenue and some means will have to be devised to drain them. At Temple street and East Park road there is a miniature lake that is anything but comforting to the property owners in the vicinity. It is several feet deep and is located on property that it is hoped to utilize some day as an extension of Echo Park. The inadequate drainage system has been completely choked by the improvement of the street and if an outlet is given to the water it will only follow the course of the ravine to the old second-street ravine, where a dump hole already exists. The water from this old park finds an outlet through the Arroyo in the River. The residents of South Figueroa street are complaining of the prospect of having two lakes with their oil coating traveling the gutters in front of their property. The street department has an old pump that has often done service in getting rid of surplus water. It is now somewhat out of repair, but will be remodeled and placed in commission just as soon as possible.

It is probable that the method will be employed in getting rid of the storm water that has gathered at Sixth and Burlington streets. There is no danger that the water will break through the street and do harm, and Councilman Walker declared last night that it was an outrage that such a report had been started.

It will never be through that the street unless there should be a continued rainfall that would fill the ravine to the level of the street, as he declared yesterday. "And even if the water should break through the street it would do out gradually. It is the contour of the ground as it exists there, it could do no lasting harm to property. To speak of loss of life is ridiculous."

B. Deranis has been awarded a contract to build a storm drain at this point, but his bond has not been accepted.

By both Councilman Walker and Health Officer Powers the oil sump is regarded as a good thing in one way. It will prevent the formation of green sludge on the water in case it should stand there long enough to grow stagnant, and would not so easily become a nuisance to the health of the locality. Similar conditions exist at the lakes along Lake Shore avenue. The water in the second-street pond stands there the year through, but its coating of oil prevents the breeding of germs.

"I couldn't even hazard a guess at the damage done to the streets," said Superintendent McGuire yesterday. "It will cost much money to repair them and I shall need all the help that the Council will spare me for the work."

MATHEWS BACK.

CHANCE FOR CHARTER.

City Attorney Mathews returned yesterday from his trip to San Francisco. He went there on matters relating to the water litigation. The train was delayed twelve hours by washouts and did not arrive in Los Angeles until 1 o'clock a.m.

As introduced, the bill of Mr. Johnson proposed a change in the State Constitution whereby 5 per cent. of the qualified voters of the city can compel the Council, or other legislative body, to submit proposed amendments to the people at an election called for the purpose. It has generally been supposed that this bill made a provision whereby cities could have more than one freeholder's charter; Mr. Mathews thought so until he read it, but such is not the case.

Mr. Mathews may propose such a provision with limitation regarding the frequency with which such charters may be submitted by another. The Constitution of the State provides that amendments may only be made to the charter once in two years, and in the case of Blanchard vs. Harvey, in which it was recently decided that only one freeholder's charter could be adopted by a city, the chief argument was that a city could not have the right to change its charters more often than it had the right to amend them.

The Los Angeles Traction Company has been sued by Ann Stewart for damages in \$2500.

The \$50,000 Schick estate was put into the Probate Court yesterday.

David J. Morgan was brought up with a sharp bail yesterday for attempting to put his wife in the insane asylum.

The Arvin boys of Arvin were acquitted yesterday of assault to commit murder last November on one Martin.

Two fighting Irishmen named Kelly and Murphy were brought into the Police Court yesterday for kicking a rough house in a saloon on the Plaza.

The testimony was taken yesterday in the case of Harry Stiles, the volunteer fireman charged with beating a woman.

G. L. Beattie, the window dresser accused of stealing from Desmond's, where he was employed, was tried yesterday for jury tampering. The jury failed to agree.

The ravines and depressions in the settled portions of the city that were filled with water during the recent storm are to be pumped out in cases where they cannot be otherwise drained.

Health Officer Powers Makes a Tour of Inspection and Decides That Prompt Action Will Prevent Any Danger from Temporary Lakes.

The ravines and depressions in the settled portions of the city that were filled with water during the recent storm are to be pumped out in cases where they cannot be otherwise drained.

Health Officer Powers made a trip of inspection yesterday afternoon and found many places that need attention.

Several ponds have formed along the line of Lake Shore avenue and some means will have to be devised to drain them.

It is probable that the method will be employed in getting rid of the storm water that has gathered at Sixth and Burlington streets.

It will never be through that the street unless there should be a continued rainfall that would fill the ravine to the level of the street, as he declared yesterday.

B. Deranis has been awarded a contract to build a storm drain at this point, but his bond has not been accepted.

average precipitation for the month for a period of twenty years has been 1.33. The precipitation for September 1 to the end of January was 5.28 inches, the average being 3.11 inches.

The report of Meat Inspector Hughes shows that during the month 480 pounds of beef were condemned and 221 pounds of pork.

just a quarrel, you understand—one word leading on to another," said Mrs. Morgan yesterday, in her own behalf, "and so on Saturday I left home just to let our difficulties simmer down. For ten years we were happy together. No, I don't deny anything I have done, and I wouldn't get mixed up in the rain like a dog."

"Do you think your wife is insane?" asked the court, warily.

"Then, why," asked the Judge, "did you wear out this complaint?"

Morgan balked. "I was advised by a lawyer to do so," he replied.

"What doctor?"

"Dr. Yost, sir," said he, timidly. "But my wife had no reason to come home and be good."

Judge Shaw then informed him that he had the proceedings against him against his wife without cause, and that if he ever did the same again, he would be in the hospital for a month.

Strawberry Growing.

An inquiry comes to this department from a client in which the latter asks for a book on strawberry culture, and for information on the subject from a local point of view. The subject suggests the inquiry in the strawberry districts of Tropico, Ardena and the southern suburbs of the city and pick up therefrom all the flowers he can get. He has various soils, and a school of cultivation and markets, as he says he intends to engage in the business. It is impossible to give here a detailed statement of western justice, but the following, for there is so much depending on the local selection that nothing out of a personal investigation and a reference to some of the local authorities should be depended upon. The first difficulty in raising strawberries in any good locality, but the market requires careful consideration. I would advise any one contemplating berry culture to interview a few berry men who have been successful in marketing the crop. At a time the farmers of the Ardena valley raised strawberries by the card, shipping 100 tons or more a month by express, and large quantities by rail. But the culture of the citrus crowded the berry acre out entirely, and this has been the fact at other places, leaving a very few trees and a few small districts. It should be a paying business.

Renew the Herds.

The rainy season has brought with it drought and a dearth of cheaper milk supply, and those who have not altogether discontinued the breeding of Jersey and other good household breeds are being forced to take a daily interest in that line. Since the advent of the dry seasons it has been noticed that the town dairy regions are being depopulated, and that the entire disappearance of the family cow was at hand. But the people have changed the features of the milk problem. Jersey cows of merit, but of ordinary purity of blood, were selling at a low price, and the demand is almost exhausted. A few good stock breeders in each section could do much to help the dairy by selling back the cows to the farms of Southern California, and I believe they will undertake to resupply the country. It

yard or stable which since has not been cleaned for some time. The cattle were in it that did not show a clean bill of health. Even the amount of food consumed was carried for each animal is specified by law, and the number of them that one man must care for is limited by law. Each animal, as also that is allowed to each man, is specified by law. The feeders must be experienced in the care of the animals. They are kept below 1 per cent. from all causes in all classes. —American Cultivator.

and their men, and additional furnaces as fast as the mine can economically produce them. We are now going to see the work complete."

A VEINY EXCLUSIVE PLACE

The mine, underground, is one of the few secret properties of the West. It is held that even H. J. Allen, the financial manager of the company, has never been down the shaft. The underground workings are solely under the charge of J. J. Allen and ingress and egress are by written orders and passes only. Such orders have ever been written, and none have ever attended the mine by minor stockholders, who have a mandate that would permit their entrance. But though is known to be peculiar chimney, much after the fashion of that noted silver mine in south central Argentina. There are many valuable copper properties in the West, but few of them prove their claims to be of the extensive of the Silver Verde ore body. In fact, according to Verde ore

THERE IS A TIDE

*In the Affairs of Men, Which,
Taken at Its Flood, Leads on to
Fortune.*

THE advice given by Shakespeare about the flood tide which leads on to fortune has gone ringing down the grooves of time, and no philosopher has yet risen to dispute its soundness. The flood tide seems to be here in The Times prize contest, and those who expect to float in must get aboard in a hurry. The hints given in these columns, following the rain, and with the return of sunshine and universal confidence, is having the expected effect. Contestants are waking up all along the line—in this city, in Pasadena, and in all the outlying cities, towns and hamlets of the country people are buckling in to the work, and the subscriptions are rolling in. One subscriber has several thousand months to her credit. She is going after the biggest prize. This contest is not for lazy people, or those who hesitate and falter. It requires nerve, prompt decision and active effort to carry the day.

To Be Well Dressed.

Is the prerogative of a gentleman. Some lady who wins that \$50 prize to come from the house of Mullan, Blissett & Co. can do her husband proud by presenting the suit to him, or if she prefers she may wear the suit herself. Anything to please the lucky winner!

A Record of Your Life.

A pictorial record, which will be of interest and value to yourself and friends is after years may be secured if you have a kodak and become proficient in amateur photography. To encourage this pictorial record making The Times offers three prizes in Eastman kodaks, to come from the supply house of Dewey Bros., 228 South Spring street.

The Pianola.

Is an instrument by means of which it is for the first time possible to play a piano with a mechanically-supplied technique, and at the same time with so much personality of expression that the performance is not to be distinguished from that of the unassisted human fingers. The pianola supplies sixty-five fingers in place of ten, and the touch of these mechanical fingers may be modulated to suit the will of the performer. One of these wonderful little instruments or adjuncts, valued at \$250, together with \$25 worth of music, specially prepared for it, is offered as a prize in our General Class. It comes from the establishment of the Southern California Music Company, and constitutes the most unique and novel prize in this distribution. Anybody who has not seen the performance of this wonderful device should visit the headquarters, Nos. 216-218 West Third street, and see what a wonder it is.

Besides Tooth-pulling.

There is a good deal of dentistry work that the average man or woman of middle age needs to have done. There is a bridge to put in, or some old teeth to be capped, or some filling to be done, or possibly an entire set of teeth to be made. A \$50 prize in dentistry work would be the thing to please some people beyond almost anything else to be offered. See the Schiffman dentistry prize named elsewhere.

A Degree of Elegance.

Comes naturally to one's writing when he sits before a fine desk and in a comfortable and handsome chair. Environment has a great deal to do with everything in this world. The \$50 prize offered by The Times, to be taken from the establishment of the Los Angeles Furniture Company, is a very beautiful and highly-finished mahogany desk and a chair to match. This is a prize to take the eye of an artist or a poet.

In the Very Center.

Of the town is where the Hub Clothing Company's immense establishment is located. It is at this center that the winner of that \$50 prize is to be outfitted with suit, overcoat, hat, gloves, undershirt and everything he wants up to the value of the prize.

A Ring.

A ring, my kingdom for a ring like that little solitaire diamond set beauty from the establishment of Donovan & Co. It is a prize in the General Class that would command \$75 in any market.

If Anybody Deserves It.

The young man who strikes out on his own hook and gets up a good club of subscribers for The Times deserves that \$50 tailor-made suit from Silverwood's, if anybody does. And some deserving young man who thus earns it will get it. Silverwood's is at No. 321 South Spring street.

Choose Your Field.

A person living in a small town should not be dashed by the idea that he or she is competing against canvassers in a much larger place, and therefore has no chance of winning. The object of the careful classification made by The Times was to obviate this very objection. There are five classifications, each with its separate list of prizes. These segregate the competition as follows, placing cities and towns of approxi-

mately equal population in competition with each other:

Class One—Cities of 10,000 population and over.

Class Two—Cities of 5000 to 10,000.

Class Three—Cities of 2500 to 5000.

Class Four—Cities of 1000 to 2500.

Class Five—Towns of 200 to 1000.

This gives a person who wishes to enter the competition a chance to do so in his own bailiwick, or to select some other field larger or smaller and more to his or her liking. In any event the chances, so far as population goes, will be nearly equalized. If one chooses a restricted field to begin with, he can take a larger one as a second proposition, and thus work till he covers as much territory as he chooses. He thus secures a chance at the prizes in each one of the classifications entered, and the aggregate results of his labors entitle him to a chance in the general prizes also.

It is often easier to obtain subscriptions in a sparsely-settled section that is rarely visited by canvassers than it is in a populous place that is canvassed every week or every day by somebody for one thing or another. Hence some people may find it to their advantage to begin this thing "at the small end" and work up to something larger. However, everybody has his own ideas about such matters, and it is not the purpose of The Times to obtrude plans of campaign, or force them upon competitors. These remarks are only by way of suggestion.

Do You Own Land?

If not you do not wish to own some? Every man and woman in this world feels a little more important and substantial for the possession of a bit of realty, even though the holding may be small. Probably a better opportunity will never occur in Southern California for landless people to cross the line and become freeholders than that presented by The Times in this distribution. There are land prizes offered as follows:

In Class One—Two city lots on Angeles Heights, a beautiful and well-built-up residence section of this city. The value of these lots is set down at \$1400.

In Class Two there is five acres of choice orange land in the settlement of Bloomington, value \$750.

In Class Three, a lot in University district, a section of the city to which the tide of improvement is setting very strongly, and which is already well supplied with fine houses.

In Class Four, two lots at Redondo, a watering-place that ranks as one of the most popular in Southern California. These lots are valued at \$500. They would make a nice location for a summer cottage or for an all-the-year-round residence.

In Class Five, two and eight-tenths acres in La Cañada, a desirable orange-growing settlement close to Los Angeles, and presenting all the attractions of the foothills. This would give the possessor a chance to enjoy the fruits of a little farm well titled.

In the General Class, five acres of choice orange-growing land at Bloomington. This is a big enough place to make the holder independent of the world. Water, labor and time will do it. The value of this tract is \$1500.

Here are six fine openings to acquire real estate, and every person can make themselves happy and get started on the road to competence by earning these prizes.

Money Talks.

Of course it is not necessary to enlarge upon the desirability of the cash prizes offered in this distribution. The money speaks for itself in the clink of coin. With money a person may gratify almost every want.

In Class One there are fifty-nine cash prizes, ranging from \$750 down to \$5, one of \$750, one of \$350, one of \$150, one of \$100, and fifty-five below \$100.

In Class Two there are forty-three cash prizes, ranging from \$100 down to \$5, one of \$100, one of \$75, one of \$50, one of \$25, and thirty-nine under \$25.

In Class Three there are twenty-six cash prizes, ranging from \$75 down to \$5, one of \$75, one of \$50, one of \$25, and twenty-one under \$25.

In Class Four there are forty-six cash prizes, ranging from \$100 down to \$5, one of \$100, one of \$75, one of \$50, one of \$25, and forty-two under \$25.

In Class Five there are thirty-three cash prizes, ranging from \$50 down to \$5, one of \$50, one of \$25, one of \$10, one of \$5, and twenty-nine under \$5.

In the General Class there are fifty-nine cash prizes, ranging from \$150 down to \$5, one of \$150, one of \$100, one of \$50, one of \$25, one of \$10, one of \$5, and fifty-five below \$10.

This makes a grand total of 266 cash prizes, ranging in amounts from \$5 to \$750. It will make quite a distribution of capital when these prizes are given out; quite a little army of people will be made happy. Money does lots of things besides talking.

Be Obliging.

If you are going to continue taking The Times—and of course you are—you just as well let some worthy person have the benefit of your subscription. Doing so doesn't cost you anything extra, nor disturb your relations in any manner whatever with the carrier or collector. You go right along, paying exactly as you have always done. But you have conferred a favor that may mean more to the solicitor.

TO PRESENT SUBSCRIBERS.

Any subscriber who may have the desire to favor some particular competitor for a Times prize may fill out the following form, and send it to The Times office, and the person named will be properly credited with the subscription for as many months as are named in the order:

PRIZE OR NO PRIZE

There's Money in Taking Subscriptions for The Times!

The prizes are all right. There are plenty of them (500 and upward) and they will be awarded strictly in accordance with the standing of the contestants in the race—the largest prize for the largest list, the next largest for the second largest list, and so on down. Nobody need to worry about not getting a prize.

Still, over and above the prizes, and entirely independent of them there is money for canvassers in commissions, and if these amount to more than \$3.00 they will not have to take a punching bag or a pair of shoes instead of the money.

Classes and Prizes.

Class One Takes in all cities with a population of 10,000 or upward. In this class there are at present 105 prizes ranging in value from \$1400 down to \$5.00, and more are to be added.

Class Two Covers cities with from 5000 to 10,000 population. In this class there are now 77 prizes, ranging in value from \$750 down to \$5.00, but others will be added.

Class Three Embraces all towns with from 2500 to 5000 population. In it are 52 prizes, ranging in value from \$500 down to \$5.00, but more are to be added.

Class Four Includes towns of from 1000 to 2500 population. In it at present are 84 prizes, ranging in value from \$250 down to \$5.00, with others to come.

Class Five Embraces towns of from 200 to 1000 population. In this class there are now 114 prizes, ranging in value from \$150 down to \$5.00, but others will be added.

The General Prizes Free-for-all. Everything is counted. Of these there are, at present, 140, ranging in value from \$1500 down to \$5.00, but additions are yet to be made, and the number will probably exceed 150.

A commission of \$1.20 is allowed on each yearly subscription that is accompanied by the cash, provided the subscriber is not already taking the paper regularly, and a proportionate amount if the subscription is for a shorter period than one year.

This Is Payable on Receipt of the Subscription.

There is no waiting. And whether the canvasser wins a prize later on, or doesn't, has nothing whatever to do with it! Of course, canvassers may take subscriptions on time—as many as they please of them—and they will all count in the competition for prizes. But these must be taken on the regular blanks furnished by the office. Apply at The Times office for an outfit and instructions.

THERE'S MONEY IN IT!
